THIRTY-FIRST YEAR

LANCASTER, KY., THURSDAY AFTERNOON, AUGUST 5, 1920.

NUMBER 20.

WHY NOT THE CITY OWN THE LIGHT PLANT.

Will The People Be Protected?

WHAT SHOULD BE DONE ABOUT LIGHTING THE TOWN?

The Editor of the Record believes that the Council and the legal department of the City would properly look after the interest of the people in the controversy with the owners of the Light and Power Plant of the City, has taken little interest heretofore in the controversies that have been going on. But so many citizens have spoken to us about the matter and finally having been personally requested to go before the Council in the interest of the people and being invited by the Council to do so we were present at the meeting Monday night last and gave our views in person to the Council as to what should be done under the present conditions. Bastin Brothers, the owners of the plant, were asking a rate amounting to about 23½ cents per K. W., for private lighting and \$300.00 per month for lighting the streets and pumping. This appeared to us to be unreasonable. It is generally known that the owners of the plant have given notice and were threatening to close down the plant and refuse to give service. This has excited and terrified a number of people and some of the City authorities until they were willing it seemed to give any kind of concessions and pay any kind of rates that the Light people demanded. It is presently in the power of the Light Company to close down the plant, but it is our opinion that under the contract existing between the Company and the City that if the legal department of the City should do its duty to the people that the Circuit Court, which will be in session the fourth Monday in this month, would promptly be a receiver in charge of the plant to be operated for the benefit of the people. It is further our opinion that had the legal department of the City taken the proper legal steps, that is, filed an answer in the suit against the city, which was not done, setting out that the notice to quit was not a reasonable notice, that instead of three months notice it should have been three years notice, we have no doubt but the Court would have sustained the City's contention and instead of having to pay eighteen cents per K. W. for private lighting as finally agreed upon Monday night, after the people had protested so strongly, service would have been compelled by the Court for at least two years at the old rate from 8 to 10 cents per K. W. Again, the City could have plead, which was not done, that under the contract between the City and the Company that the City could take the plant over at its original cost, under certain conditions, and provisions and owned and operated the plant as a public owned utility in connection with the Water plant now owned by the City. We have no doubt that the Courts would hold if the City's legal department, in charge of Mr. R. H. Tomlinson, City Attorney, would file an answer in this case pleading as provided in the contract for the City, that the City desired to exercise its option to take over the plant under the terms of the contract that the Court would hold that the City could do so. In this connection we desire to say that the City should own this plant, is able to do so financially, and it would be a money maker to the City, and now is the time for the City to do so when the present owners of the light plant desire to quit business and have given notice that they intend to do so and we urgently present to the people of Lancaster this view for their consideration and urge the business men of the City to get together and to demand of the Council and the legal department of the City that this movement be put on foot. If they fail to do so now the City will lose its opportunity to take advantage of the provisions reserved to them to do this in the contract. In other words, desiring to give the people of Lancaster the real facts relative to the status of the controversy over the lighting of the City its advantage is wholly in favor of the City in the controversy, provided the City officials will boldly and fearlessly look after the people's interest and take advantage of the opportunity to protect the people's rights as secured to them under the contract entered into between Bastin Brothers and the City. These statements we

Headquarters At Danville.

Between fifty and seventy-five men compose the engineering corp of the Federal Highway and have located their headquarters at Danville this week, coming from Lagrange, Ky., where they have been doing similar duty for the past two months.

The party while located in Danville will use the Centre College gymnasium for sleeping quarters and the Old Centre Home kitchen and dining room during the month of August, chief Federal road engineer, and F. W. Friel, chief clerk, having made the necessary arrangements.

They will work fifty miles each way out of Danville and will average about three miles each day surveying.

The highway runs from Richmond through Lancaster to Hardystown, in Hart county, twenty miles of the road running through Garrard county.

A bond issue of \$192,000 was voted last March to take care of Garrard county's part of the road.

Electrical

Book-Keeping.

There was installed the first of this month, in Joseph's store, the latest device in electrical book-keeping. Something novel and absolutely correct. No mistakes can be made with individual accounts as it adds every charge and subtracts every credit, all by electricity. In fact it does about everything except send out the statements every sixty days and collect the accounts. The latter, of course is expected to be done by the customer. Mr. Joseph will gladly explain it in detail to all concerned.

make here were made Monday night before the Council in open meeting, while the City Attorney was present, as was the attorney for the Light Company and no question was raised as to the merits of the contention by any one.

The editor of this paper entertains the kindness feeling personally for the owners of the light plant, Bastin Brothers, but in this matter of such public interest we can say conscientiously to the people that if the Council cannot arrange a rate satisfactory to the people, that steps should be taken immediately in the suit that is now pending which was instituted for Bastin Brothers benefit against the City, as we see it, to compel a surrender and conveyance of the plant to the City under the terms of the contract, and the business people should get behind the proposition immediately.

The Council, who are the representatives of the people in this matter, should not lay down on the job but should fight for the people's interest to the very last. Bastin Brothers cannot complain of any injustice on the part of anybody in contending for the people's rights, for they entered into an open, fair contract to give service to the people for twenty years at the rates presently charged from 8 to 10 cents per K. W., for private lighting and street lighting twelve and one half dollars per year for each 100 candle power light on the streets, and it is the Company that is trying to change the terms of the contract and not the people.

It was agreed Monday night to submit the matter to arbitration as to rates, which was an unreasonable and silly move on the part of the City as we see it. The arbitrators were to be electricians, in the lighting business, and as a matter of course in sympathy in all probability with their fellow associates in the business. There is no reason for arbitration. The city officials fixed the rates in the old contract, which Bastin Brothers purchased as the highest bidder. It is entirely within the power of the City officials to fix these rates, and if it is desired, to further contract with Bastin Brothers for lighting the City, ought to compel them to accept these rates, or direct the City Attorney to wake up on his job and file an answer in the case between the City and Bastin Brothers and compel them to furnish service for the next two years at the old rate, or take over the plant for the benefit of the people as thought best by the Council.

While it has been voted by the Council already to offer for sale a franchise, yet the City is in no way bound to accept the bid offered for the franchise and the matter is still open for the protection of the people's interest if the Council has the courage and the City Attorney has the vision and determination to do so.

IRA J. HOLTZCLAW

Passes Into Great Beyond

The announcement early Tuesday morning that Ira Holtzclaw was dead was a distinct shock to the entire city and a great grief to so many who have been his daily companions since he moved into our midst. He passed away last Monday night about 11:45 o'clock, having been unconscious for about twelve hours preceding his death. His symptoms from the first showed euremic poisoning from kidney trouble or Bright's disease. He was an exceedingly quiet and modest young man, attending to his business strictly. We do not suppose he had an enemy and we do know that his friends were legion. He was upright and honorable in all his business dealings with his fellowman and the community is deprived of a splendid citizen and Lancaster one of its best business men. He was a man of few words, but his voice was always for the right as he saw it. His ideals were high and while his retiring disposition kept him from assuming or seeking prominence, he made the reputation of an honorable and Christian gentleman.

At the time of his death he was in business with his father, Mr. J. F. Holtzclaw and had lived in Lancaster about twelve years.

He was born in Lincoln county, October 31st, 1885 and was nearly 35 years of age. At the age of twelve he confessed his faith in his Savior and attached himself to the Baptist church and has been one of its faithful members ever since.

On January 26th, 1916 he was married to Miss Ella Thompson, daughter of Mr. and Mrs. Andrew Thompson, of Boyle county and who has the heartfelt sympathy of the community in the loss of a devoted and affectionate husband. His father, Mr. J. F. Holtzclaw and one brother, Clyde Holtzclaw, also survive him.

Funeral services were conducted at his late home yesterday afternoon by Rev. W. L. Walker, pastor of the Danville Baptist church, of which Mr. Holtzclaw was a devout member. A quartet from the same church rendered several appropriate songs. The profusion of flowers, among them many handsome designs, a large concourse of people, attested to the esteem in which the deceased was held. Interment was in the Lancaster cemetery.

Revival Services

The revival meeting will begin at Bethel Church on Friday night, August 13th. All are urged and invited to attend this revival. Rev. Frank Tinder will hold the meeting.

Died Suddenly.

Old "Brother" Silas Crawford, a faithful old colored minister, liked by all, both white and colored, was found dead in bed last Tuesday morning. He had been complaining some for several days, but it was not thought he was seriously ill. He was buried yesterday.

"Let's Get Acquainted"

The business men of Lancaster held an enthusiastic meeting at the court house last Friday night and appointed a committee to make arrangements for the "get acquainted day" to be held Wednesday, August 1st. From the spirit shown at this meeting the success of the day is assured. Another meeting is called for tomorrow night, (Friday) at the court house at 7:30 o'clock and every one interested in the progress of Lancaster and Garrard county is urged to be present.

Meeting Of American Legion.

The American Legion of Post Heidal Sanford, No. 35 will meet at the Police Court Room, in Lancaster, Ky., Thursday night, August 5th 1920 at 8 P. M.

Matters of importance will come before this body. You will be called upon to select delegate to the State Convention. Remember the election of officers in September. Please be present and bring several Ex. Service men with you.

PLANT INFECTION

Threatens 1920 Crop of Burley. Winds Scatterers Blight.

NO COMPLAINT IN GARRARD

Widespread infection of tobacco in Central Kentucky has already cost farmers \$250,000 and there is danger that the total damage will amount to more than a million dollars, it became known Tuesday afternoon when reports from various counties in the Burley belt were received in Lexington. The Experiment Station staff is hard at work on a remedy for the various infections reported some of which are new to Kentucky. The counties known to have developed tobacco infections include Fayette, Scott, Bourbon, Jessamine, Mercer, Clark, Boyle and Harrison. On one farm alone, that of D. W. Scott, former sheriff of Fayette county, the loss is more than \$20,000. The loss on the farm of J. D. Gay, near Pine Grove is estimated at \$15,000.

At least two distinct diseases infecting plants in Central Kentucky have been definitely identified. One is what is commonly called "rust," a bacterial infection. The other bears a close resemblance to "wild fire" a bacterial infection which cost North Carolina tobacco growers millions of dollars four years ago. This is the first appearance so far as known, of the latter disease in this State. Both of the diseases identified are spread by the wind. Dr. W. D. Valleau, plant pathologist, has taken charge of the fight on the disease for the Experiment Station. He declared the situation to be alarming. A large amount of wind and rain at the present time will do considerable damage to tobacco near infected fields.

Characteristics of the two diseases were explained. The characteristics of the infections are distinct. "Wild fire" has been found south and east of Lexington. A yellow spot on the leaves appearing about 24 hours after rain is a sign of "wild fire." The spot is from one fourth to one half inch in diameter. At the end of 72 hours a brown spot will have appeared with in the yellow spot and a yellow halo around the yellow discoloration if the infection is "wild fire." The yellow spot spreads until it takes in practically the entire leaf, which loses its greenness. "Rust," the more familiar of the diseases, is first noted when a brown spot surrounded by a yellow halo appears. The first reports of "wild fire" were made early in the spring when a number of tobacco beds were infected. The situation first began to become serious June 15. Since that time the infections have spread.

Funeral services were conducted at the grave in the Lancaster cemetery last Sunday afternoon, by Rev. C. D. Strother, interment taking place immediately after.

TOBACCO MARKET

Opens Well In South.

Last week witnessed the opening of many of the tobacco markets in South Georgia and South Carolina, with prices ranging from 20 to 80 cents a pound. Growers and buyers all over the territory expressing satisfaction with the opening sales and predicted that prices will be a great deal higher within the next two weeks.

Optimism over the high prices reigns supreme around Valdosta, where as high as 80 cents a pound was paid. Buyers proclaiming the quality was the best they had ever seen in that section of the state. Sales will continue in this section of the state for the next six weeks and it is freely predicted that much higher prices will be reached.

Success Of An Editor

Luke McLuke says. The subject of our sketch is Henry Howden Holden Humm, a newspaper editor. Twenty years ago Mr. Humm started in with \$1.00. To-day he is worth \$50,000. His accumulation is due to four things, as follows:

I. His honesty.
II. His frugality.

III. His strict attention to business.

IV. The fact that an uncle died last week and left him \$49,999.

Acousticon In Church.

Many people may not know that an acousticon was placed in the Christian church here about a year ago and is giving entire satisfaction. The instrument, which is operated by electricity, is a sort of magnifying telephone with a transmitter on the pulpit and receiving connection in some of the pews. It was installed for the assistance of deaf persons in the audience.

Shipp-Logan

A marriage of unusual interest to Lexington and Louisville people where the contracting parties are so well and popular known, was that of Mr. Victor Hubert Logan, son of Mills M. Logan, of Louisville and former Attorney General of the state, and Miss Marion Russell Shipp, daughter of H. C. Shipp, of the Shipp-Ross Company of Lexington, which took place at the residence here of Rev. E. S. Taylor last Thursday afternoon, Rev. Bourland officiating. Only the father of the bride was present, the party coming down from Crab Orchard where they have been for several years. While not an elopement the wedding comes as quite a surprise to friends of the bride, who is exceedingly popular in Lexington society.

Immediately after the marriage they left for an extended honey-moon trip to Canada, returning they will make their home in Louisville where Mr. Logan will join his father's law firm of Brown, Logan and Myatt.

Mr. Henry Simpson, of Lexington, who has been the manager of one of the chain of Glass stores has just purchased the grocery business of J. T. McCarty on East Main street in Lexington and took possession yesterday.

STILL UNSETTLED

Light Franchise May Be Arbitrated.

So much dissatisfaction was found among the people, over the rate talked of and partially agreed to by the City Council at its meeting last Tuesday night a week ago, that the whole thing was cancelled at the regular meeting last Monday night and may be arbitrated, according to an agreement made with Bastin Brothers and the City Council. Terms were agreed upon as to the rate that shall be charged until such arbitration is settled and can be found in an ordinance which is published in this issue of the Record. It fixes the rate for power at 15 cents and for lighting at 18 cents. Two of the councilmen Kelley and Adams voted against the above rate and are still firm in their conviction that such a rate is exorbitant.

SAD DEATH

Appendicitis Proves Fatal to Tilefus Bourne.

Tilefus Bourne, aged 21 years and oldest and only son of Mr. and Mrs. Ed Bourne, died at the Danville hospital last Saturday morning after an acute attack of appendicitis. The young man was operated upon last Tuesday and at the time of the operation it was thought that the chances for his recovery were doubtful.

His death brings sorrow beyond measure into the home where he was born and had lived all his young life. He was a splendid young man, energetic, manly, lovable and a dutiful son, the idol of his parents. Being the only boy he will be sadly missed and many hearts are aching today to know that he is no more.

Funeral services were conducted at the grave in the Lancaster cemetery last Sunday afternoon, by Rev. C. D. Strother, interment taking place immediately after.

Brought Here

For Interment.

The body of Mrs. Edgar Doty, who died of tuberculosis at her home in Pecos, Texas, about a year ago, was brought to Lancaster for permanent interment last Saturday afternoon. It was at the request of Mrs. Doty that this was done. The remains were accompanied by Mr. Edgar Doty and Mrs. Doty's mother, Mrs. W. C. Stiles, of Starkville, Miss. They will remain in Kentucky for several weeks and will be the guests of Misses Mary Essie, Jessie and Dannie, on Richmond street.

Asks If Reward Is Given For Triplets.

Washington—One of the most peculiar requests that ever came to a member of Congress has been sent to Representative King Swope of Kentucky. The writer, a man named McWhorter, who evidently was frustrated to the point where he forgot to sign his first name and whose home is at Hustonville, Lincoln county, wrote to the solon to announce the arrival of triplets, Essie, Jessie and Jessie, at his house and to request information as to whether there is any reward offered either by the Government or the State for such an achievement. The Congressman's private secretary replied in a sympathetic vein, saying that if there isn't such a reward there ought to be.

Some men are lavish in the extension of praise for work well done—but most of it is given to themselves.

In Europe there are not enough men to go round, but the trouble in this country is to get them to go.

The world is full of pep, but apparently many people have a constitutional objection to being called the world.

It's really unkind, sister, to sit up nights wondering why your neighbor does not go to bed. She may be waiting for you to douse the glam.

Matches that are supposed to have been "made in heaven" should stay there. The divorce court's jurisdiction does not extend that far.

It wouldn't be so bad after all to have a woman for secretary of state. The secrets of the state department would be an open book, and that would prevent the danger of any entangling alliances.

With both a coal and a food famine promised for this winter, we have the rare privilege of choosing our own manner of shuffling off. We can either starve to death or freeze.

Want to have people running after you, and begging for permission to take your picture free of charge? Easiest thing in the world. Just get yourself nominated for the presidency.

One industry at least has not felt the depressing hand of the high cost of everything. The divorce courts keep on grinding them out about as rapidly as the judges can issue the decrees.

They tell us that the early bird catches the worm. Well, that ought to be a good argument for some people to advance in defense of the habit of sleeping until nine or ten o'clock every morning.

It must be a whale of a job for little Dan Cupid to work up a weddin in the face of the present high cost of everything and nothing. But little Dan is a hustler, and rumor has it he is busily engaged in pulling off a surprising stunt right here in our own midst.

We have no particular objection to woman usurping the time honored prerogatives of men. We can even endure seeing them wear the family pants. But we have an everlasting and eternal objection to being reduced to the dire extremity of washing our own sox. The situation is becoming alarming, and we men must hang together or we'll all hang separately.

Don't Let Catarrh Drag You into Consumption

Avoid Its Dangerous Stage.

There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and the hawking and spitting and other distasteful features.

The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot

be cured by sprays, inhalers, jellies and other local applications.

S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and tends to remove the germs of the disease from the blood. A PAIR OF RUBBERS.

By GEORGE ELMER COBB.

(Copyright, 1920, Western Newspaper Union)

Irrationally jealous, piqued, angry at pretty innocent Doris Blake, mad at himself and feeling resentful toward the world at large, Cyril Vance lifted his hat resentfully as he passed the home of Miss Ophelia Blinn.

It was also the home of that lady's adopted niece, Doris, and there the cowering anxiety rested. She and Vance had been something more than friends for over a year. He had been pretty exclusively in her company, and he had fired up very forcibly when a close friend remarked to him:

"I see that Rutgers fellow has broken into the good graces of the Blinns."

"That Rutgers fellow" was a dashing young man who had come to the town a week previous. He was looking for a factory site, he gave it out, and had plenty of money, good clothes. "All flash and glitter," was the way Vance set him down, and the next day when Rutgers dashed by in an automobile in company with Miss Ophelia and her pretty niece, there could be but one construction to the presentment.

Doris was, of course, the attraction, for Miss Blake was a confirmed old maid. Vance paid no attention to a casual suggestion he overheard that as Miss Blake owned considerable property about town the alleged factory representative might be negotiating with her for a building site.

And now, as Vance observed the lady in question seated on the porch with Rutgers and her niece, he paid no attention to a pleading, inviting expression upon the face of Doris.

"I'll drop her if she is encouraging that braggart fop!" soliloquized Vance hotly, but at dusk the ensuing evening strolled past the Blake home, secretly hoping that Doris would appear.

Victor, his faithful dog, ran up on the porch as if reminding the young man of his many past visits, but Vance kept on. Beside the door was a pair of rubbers, man's size, and within the lighted room Vance caught sight of his fancied rival.

"Here, what have you got?" challenged Vance, and as Victor laid a rubber at his feet Vance picked it up. At once he comprehended that it was one of those he had noticed on the Blake porch. As he turned it over he observed casually a deep brownish stain where the instep curved. He was debating if he should repass the house and restore the rubber to its companion when he was conscious that a keen-eyed man was at his side interestedly regarding the flitched rubber.

"Yours?" he insinuated.
"No," retorted Vance curtly. "My dog took it from a porch down the street."

"Where—which porch?" pursued the stranger.

"Second house back. Why do you ask?" demanded Vance suspiciously. The man mumbled something about being an inquisitive sort of a fellow and as Vance turned around and retraced his steps flung the rubber over the fence of the Blake home. The stranger watched Vance closely and then disappeared in the darkness. Later, through a cautious detour, he reached the Blake home, glided up to the porch and carried away both rubbers and chuckled in a pleased though sinister way.

The town had been greatly stirred up two days previous by the announcement that the great tannery at the edge of the town had been visited the night previous, its office broken into and a small fortune in cash and Liberty bonds secured from its safe. Officers from the county seat had been sent for and Vance, thinking later of the inquisitive stranger, wondered if he was not some detective attempting to ferret out the perpetrators of the burglary.

It was the next morning that Vance came face to face with Doris turning a corner. He flushed with some embarrassment and she paled as though under a strain of some fervid emotion.

"You have not been to the house lately, Cyril," she spoke in a subdued half reproachful tone.

"You seem to have plenty of company," retorted Vance and then was ashamed of himself, for the quick tears came into those gentle eyes.

"You mean this Bryce Rutgers," said Doris. "It is of him I have wished to speak to you all along. Oh, Cyril, he has made an impression on Aunt Ophelia and I am nearly distracted. I know he is after the property and that he is not the kind of a man who means what he says. Can you not do something to save poor sentimental Aunt Ophelia?"

At that moment the mysterious man of the evening previous came into sight. He looked invitingly at Vance and then beckoned to him.

"Those rubbers belonged to that Rutgers fellow," he said. "I owe a successful case to you. The minute I saw the red marks of the hemlock pit at the tannery I knew the fellow was the man I was after. I nabbed him and most of the plunder. I have sent him to the county seat in handcuffs."

Aunt Ophelia took the dissipation of her fond single-life romance rather hard, but only for a time. Then she settled down to making the required *lovers happy*.

Even the most hardened old reprobate may be expected to repent in time—when he gets caught.

An anonymous writer who hasn't reached the age of polite discretion remarks that paint doesn't have the same effect on an old face that it does on an old house.

We read much about the upper crust of society, of the middle class, and also of the lower strata. But it's difficult to find anyone who admits classification in the two latter.

Why lament the fact that you are not rich? If we had a million we would always be wanting something that it would take two millions to buy.

Victor, his faithful dog, ran up on the porch as if reminding the young man of his many past visits, but Vance kept on. Beside the door was a pair of rubbers, man's size, and within the lighted room Vance caught sight of his fancied rival.

He whistled to the dog and strode on, never noticing that the animal carried something between his teeth until they came under a lamp post.

"Here, what have you got?" challenged Vance, and as Victor laid a rubber at his feet Vance picked it up. At once he comprehended that it was one of those he had noticed on the Blake porch. As he turned it over he observed casually a deep brownish stain where the instep curved. FOR CONGRESS.

We are authorized to announce RALPH GILBERT, of Shelby county, a candidate for the Democratic nomination for Congress in this, the Eighth Congressional District of Kentucky. State Primary Election, Saturday, August 7, 1920.

FOR CONGRESS.

We are authorized to announce COL FRANK L. RIPPY, of Anderson county, a candidate for the Democratic nomination for Congress in this, the Eighth Congressional District of Kentucky. State Primary Election, Saturday, August 7, 1920.

WHO'S WHO?
WILL THE DRY ISSUE LAND GILBERT THE PRIZE?

The Democratic candidates for Congress in this district will know their fate Saturday when the voters have had their chance. From what we can see there is less interest being taken in this primary than any for years, and we expect a small vote everywhere. Garrard county democrats have pricked up their ears a little since Governor Cox issued his statement that the wet and dry issue was not a question to be settled by the National Democracy but was rightfully an issue in each congressional district being a question to be regulated by congress. Judge Gilbert had before this statement, come out in favor of the dry side of the question.

Davis had declared to be in favor of the repeal of the Volstead Act which is the prohibition enforcement law, and Col. Rippy promised to make known his position on the question when accused of being wet, but up to this date so far as we have learned the Colonel has never spoken on the question. Since Davis is wet and

Rippy has not declared, this naturally puts the Dry Democrats behind Judge Gilbert in the race. This is counted a very dry district and many contend that it would be unwise to nominate a wet or non committal candidate in such a dry district as this. It will be proven Saturday what figure the dry element in the district cuts on an out issue before the Democratic voters.

BOYS BE WARNED.

It is with profound gratification that we recognize the announcement of Governor Morrow that no more clemency from the chief executive will be extended to the persons convicted of carrying a pistol concealed unlawfully. We have confidence that the Governor means what he says and the law breaker in this regard will suffer the severe penalty for such offenses. He is right in making the announcement so that all may take warning. The use of too much liquor coupled with the unlawful carrying of pistols by folks in this state in the past has been the basis of at least eighty per cent of crime. By the elimination of the two we may look for better days in Kentucky. When the Governor has proven his word and the jailer has fed a few of the pistol toasters' it will then be 'poor jailer.' We congratulate the Governor on his forward movement in the enforcement of law. Believing that Governor Morrow means every word of what he has said, we want to warn the boys to leave the old gun at home or else take the consequences.

Methodist Church Notes

The pastor attended the Wilmore Bible Conference at Wilmore, Ky., last week.

The Sunday School had a delightful picnic at Mr. T. J. Rankins on Dix River, last Saturday. One feature of the picnic was that a number went on a two-horse wagon. This lively crowd enjoyed the ride. A nice lunch was served at noon.

Card Of Thanks.

To the relatives, friends and neighbors, we wish to express our sincere gratitude for their kindness shown during the illness and death of our dear son and brother. Such kindness will always be remembered most gratefully.

Mr. and Mrs. Ed Bourne and family.

If we could only find a poisonous snake that would refrain from poisoning, we could carry it round as a first aid to parched throats. Whiskey is universally recognized as an excellent antidote for snake bite.

A number of farm organizations are figuring on a co-operative plan of marketing their products throughout the United States, with a view to eliminating the middle man and reducing the cost to the consumer. That sounds bully—but we hope it reaches the point where eating is equally bully.

In Memorium

Mr. Thos. O'Hearn passed away at his home on Lexington pike, near Marksburg, Sunday morning, July 25 1920.

This community feels a keen sense of loss in the death of this splendid old gentleman, who with his ready wit and humor made sunshine on the darkest of days and was one who numbered his friends by his acquaintances.

He was born July 6th, 1848 and had been a resident of Garrard county for twenty five years.

Mr. O'Hearn married Katherine Desmond, of Maysville, Ky., whose death occurred November 14th, 1916.

Around the hearthstone of their home, formed on a foundation of love and congeniality, they reared twelve children, six sons and six daughters, all of whom they saw grow into beautiful manhood and womanhood, ten of which followed both mother and father to the grave, two of the daughters having preceded both.

Around this home there floated an air of hospitality, mirth and courtesy, that made any who came within its circle, slow to leave and eager to return. That home was a true home, is proven by the fact that five of the ten children reside with the father at the time of his death and those not with him are in homes of their own.

On July 6th, Mr. O'Hearn was seventy-two year old and on that day his ten children and nine of the fourteen grand-children were with him.

Mr. O'Hearn had been in poor health for the past fifteen months and for the last two months, each day found this dear father more weak and frail and loved ones felt that the Death Angel was circling around the home, only awaiting the call to "Bring Him In" for nearly two weeks before the summons came, his readiness to go was proven by his manner as he plainly showed he wished nothing done to prolong his stay here.

He was ever patient and kind thru all his suffering and when asked how he was would answer, either "fine" or "alright." He was truly Catholic and received all rites of the church.

After funeral services at the home Tuesday morning by Father Shulte, of Richmond, Ky., he was laid to rest in the Lancaster cemetery.

The surviving ones are:—Mrs. W. H. Hickey, Mayslick, Mrs. John Steele, Messrs Tim and Leo O'Hearn of Louisville, Mrs. W. H. Hamilton, Bernard and Thomas O'Hearn who resided with the father.

Card Of Thanks.

May this express our thanks to all who showed us so many kindnesses in the loss of our father, Thos. O'Hearn. The Family.

TABITHA CLAY DOTY.

On the evening of July 25th, 1920, there passed from this to fairer climes the spirit of one whose life on earth was one of service, consecrated to husband, family and friends.

Faithful and true to every trust; gentle and patient and loving and kind—of her can truthfully be said. "None knew her but to love her, none named her but to praise her."

While we, who have loved her so long, can but sorrow that she is gone from us, yet can look with hope beyond the shadows, for we know that—"In the clear morning of that other country,

In Paradise,
With the same face that we have loved and cherished.

She shall arise.
And we shall find once more beyond earth's sorrows.

Beyond the Skies,
In the fair city of the sure foundations,

Those Heavenly eyes;
And through the storm and tempest, safely anchored,

Just on the other side,
We'll find her face looking through the sunlight,

Not changed, but glorified." C. D. T.

\$250,000 Loss

In Tobacco Rust

Lexington, Ky.—Surveys made recently indicate that the tobacco blight, which has already cost Central Kentucky growers \$250,000, is not spreading to any great extent. The Experiment Station staff is at work on a remedy for the two diseases believed to be at the bottom of the trouble.

In a statement issued, J. Morgan Gentry, president of the Growers' Tobacco Warehouse Co. said that he did not believe the situation would become alarming unless weather conditions are unsatisfactory. Both of

CONFIDENT TONE

In Business Developes

Improved Crop Conditions Influential In Turn For Better.

Washington.—Curtailment of industrial activities due to lower demand, cancellation of orders and general readjustment were the outstanding developments in the business of the country during July, the Federal Reserve Board declared recently in its monthly review.

"In some districts, however, production continues upon old orders, which are still on books, despite the fact that new business has fallen off," the review declared. "In the agricultural regions, improved crop conditions and the development of a more confident tone in business are reported to have been brought a turn distinctly for the better.

Speculation Is Reduced

"Speculation in commodities is, in many parts of the country, reported to have been greatly reduced, and in some practically eliminated. There is a general feeling that extravagant buying is at less extreme and dangerous than it was some time ago."

The transportation problem continued unsolved during the month, the review reported, provoking "an undue and unnecessarily severe strain upon credit."

The review says 2,000,000 tons of iron and steel products are tied up in the hands of the producers throughout the country by lack of transportation. Likewise the grain movement has been retarded.

Commenting on the labor situation, the board declares that an increase in the efficiency of labor was "one notable feature" of the month, this improvement being attributed to the development of unemployment in various parts of the country. Increased unemployment was ascribed by the board's report to curtailed manufacturing operations, cancellation of orders and inability to obtain capital for construction work.

Coal Products Hampered

Coal production, the review asserted, also is hampered by car shortage and local labor troubles. The coal output in Pennsylvania, West Virginia, Indiana, Ohio and Illinois was estimated at one-half or less of normal, with the country's total production averaging 9,000,000 tons a week in comparison with current demands showing a need for 11,000,000 tons.

Prospects for a large winter and spring wheat yield were reported by the Minneapolis, Kansas City and Pacific Coast districts. The St. Louis district, however, said the wheat there was low in quantity, but high in quality.

Other crops were reported as having improved over past months. Livestock conditions were said by the board to be exceptionally good the country over, with prices generally higher except for sheep. The raw wool market, however, continued its characteristic inactivity.

The board reported improved financial conditions, asserting that the New York district had noted that the big expansion of loans and discounts had been "wholly checked," with other districts declaring this condition had been "largely checked."

City Ordinance As To Electric Light Rates.

The City Council of the City of Lancaster, Ky., do ordain as follows: That the franchise heretofore existing between Bastin Bros., and the City of Lancaster is terminated as of August 1st, 1920, and it is further ordained that they are permitted to use the streets and alleys of the city under the following rates and conditions until the franchise is passed and ratified according to the arbitration agreement this day made:

18 cents per K. W. hour for lighting purposes.

15 cents per K. W. hour for power furnished.

100 street lights, 60 candle power, \$150.00 per month.

Pumping city water to tower, \$150.00 per month.

Minimum price of \$1.50 per month per meter, for lighting.

Minimum price for power \$1.50 per month per meter, plus \$1.00 per horse power connected load.

These charges shall be in full effect from August 1st, 1920 until the city council shall have sold and ratified a franchise according to arbitration agreement, and when said franchise is ratified the rates therein shall control from the date of ratification, and this ordinance shall be void from that date.

This shall take effect from its passage and publication.

This August 2nd, 1920.

Do You Want Beer and Wine SOLD AT EVERY COUNTRY STORE IN THE COUNTY? THINK THIS OVER MR. VOTER.

That's What May Be Made Possible If The Next Congress Modifies Or Weakens The Present Prohibition Enforcement Law. Congress Can Change The Prohibition Law, So That Your Sons Or Daughters May Be Able To Buy Wine and Beer Like They Now Buy Soda Pop. DO YOU WANT A CONDITION LIKE THAT TO COME TO PASS? IF YOU DO NOT THEN VOTE FOR GILBERT, AUGUST 7th

This is an important question in the congressional race this year and is a VERY IMPORTANT question in the Democratic primary which will be held in the 8th Congressional District on Saturday, August 7th.

Both of the great parties are silent on the liquor laws in their national platforms, recognizing the fact that the question of rigid laws is a question that Congress has to decide, and that the question is one that the Congressman you elect this fall must answer, and not the presidential candidates.

The issue is clean cut in the 8th district. There's no room for any voter to be deceived as to what his vote is going to mean.

Ralph Gilbert has taken a bold stand against any change in the strong prohibition laws we have now. He is AGAINST permitting the sale of wine or beer at country stores, soda stands or anywhere.

He stands for real prohibition, and points to the untold good it has done for mankind already as the strongest reason for the position he has taken. He will not vote in Congress, if you send him there, to weaken the prohibition laws in any way. He believes in keeping Wine, Beer and Whiskey dead and buried where they are now, and not to attempt to resurrect them by weakening the laws that are now on the statute books.

DRY DEMOCRATS OF GARRARD COUNTY, STAND FIRM FOR YOUR PRINCIPLES AND VOTE FOR GILBERT FOR CONGRESS, SATURDAY, AUGUST 7th. HE IS MAKING THE FIGHT FOR YOU AND YOUR CHILDREN.

Why Not Here?

Some time ago Henry Ford suggested that manufacturing concerns build factories out in the farming centers and employ the farm hands during the winter months, then shut down in summer and leave them free to work the farms.

Mr. Ford's idea is that this would keep the young men on the farms and solve the help question.

The idea is full of logic and common sense.

It could be done. Furthermore, it could be done right here in this community.

Such a factory, or even a number of them, could be operated economically in this town.

It might well be conducted upon a co-operative basis, with each employee sharing in the profits.

We believe every dollar required for such an enterprise could be raised in this town and farming community.

We believe the employees of such a concern would all subscribe for some of the stock, if given an opportunity to pay for it from their co-operative dividends and from their wages.

We have the emergency.

Have we the leader who is equal to it?

Theoretically the presidency is a gift of the people, but practically the great mass of them have but little voice in its bestowal. The bosses are still in the saddle, although the girths are becoming weakened.

Collective Brains.

There is no dearth of brains in this town. We have an abundance, and to spare.

But they are mostly individual brains, operating individually and for the benefit of the individual.

What we need is collective brains—the brains of many individuals who co-operate in enterprises for the common good of all.

Much can be accomplished through the collective use of the brain power of this town, but little can be expected if each individual centers his brain upon his own individual pursuits and refuses to permit it to function beyond that point.

Individual operation of brain power is good, but both individual and collective power is better—much better.

The man who has but few brains needs them all for himself.

Those who have been richly endowed by nature in this respect can afford to devote a portion of their mental activities toward community betterment.

Which class are you in?

The fellow who is most convincing is often the one who says nothing.

A writer of note declares that the country is rapidly becoming feminized—that the women are gradually taking over all of the work of men. Oh, joy! What a relief it would be if they would only complete the job in time for us to take one royal loaf before we cash in. But there's no such luck.

A WEDDING JUNE

George Didn't Realize How Much His Bride Was To Him Until Almost Too Late.

George Wharton nearly failed to get married in June. Only presence of mind and a loud voice saved him.

In spite of the fact that George's face and form cause no jealous heartburning among the movie heroes he had won a beautiful young and attractive bride, and their union was to be celebrated with all the pomp, ceremony and trimmings possible from train bearers to white satin ribbons up the aisle of the Cathedral with the Bishop of the Diocese waiting at the altar.

George was frightened. With red face and long swinging coat, he needed only a whip to be taken for an all night cabman. He did not know where to stand or what to do and it was with the utmost difficulty that his sprightly and handsome young brother, acting as best man, maneuvered him to the head of the aisle. The bishop was a stranger to George and very near sighted and when he saw the beautiful bride and the handsome kid brother before him, he joined their hands and began the solemn ceremony which would make them one.

George came out of his daze. As he saw his bride about to be joined in wedlock to another, he swept his brother aside with one wave of a fat arm, seized the bride's white hand in a sweating palm and boomed in a voice that filled every corner of the cathedral.

"Nix bish, nix. You got the wrong guy."

Thousands of Americans are on the point of being tied up for life to financial safety. They have won a faithful partner for the future through thrift, saving and investment in Government securities. But they are likely to lose her at the altar if they relax their vigilance for a moment. If they fail to hold tight to sane spending and wise buying, to regular and consistent and systematic saving and to safe and secure investment such as Government

Savings Stamps, Treasury Savings Certificates and Liberty Bonds, they may be separated from financial safety forever.

Investment in insecure, fraudulent or speculative stocks will accomplish the foul deed, will crowd in between you and your future happiness. If that kind of investment temptation takes your future happiness by the hand and tries to claim her, there is only one thing left to do. Break right into the ceremony and say "Nix, you got the wrong guy."

HERE'S A FOOLISH MAN

Chops Up His Furniture To Use As Fuel And Realizes Mistake Too Late.

Once upon a time there was a man who said it was too cold to go out into the woods to chop large logs for the fire. So he conceived the idea of chopping up the furniture for that purpose. In a short time he had disposed thus of the chairs and tables—and, then, being cold once more, he took out the window frames and burned them, and after the window frames, the doors.

These being burned, he was colder than ever, of course. Thereupon he started to tear down the house and burn it piece by piece until, at the end, he had neither house nor heat.

The folly of this man is not unlike that of the person who, for frivolous reason, sells his Liberty Bonds which, by painstaking thrift and sacrifice, he acquired during the war to be his protection for the rainy day.

He is disposing of a sheltering roof and knocking out the door that might serve later to help keep out the wolf.

A Liberty Bond is a capital.

No prudent man or firm ever dissipates capital, for it is the foundation on which a business is based. A firm that begins dipping into capital for running expenses is ready for bankruptcy and ruin.

Don't spend your Liberty Bonds.

To do it is like burning down the house to keep warm.

A man may think he knows his own faults, but his neighbors can tell him a lot he doesn't know.

Strange, you think, that this war did not produce a single military commander whom the public could elevate to the hero class? Not a bit of it. The buck privates had so many brains and used them to such excellent advantage there was no opportunity left for the officers to shine by comparison.

READ WHAT THOSE WHO SERVE ED UNDER HIM SAY:

TO THE DEMOCRATS OF MADISON COUNTY AND VOTERS OF
THE 8th CONGRESSIONAL DISTRICT—

We, the undersigned soldiers and
men who served in the United States
Army, with Col. Frank L. Ripy, on
the Mexican border and in France,
desire to state that Mr. Ripy was our
Colonel.

We consider him to be an Ameri-
can of the highest type, a loyal citizen,
a great soldier, a sober honorable
gentleman, a kind officer, one
who treated every mother's boy in a
kind and fatherly-like manner. He
is our friend and your friend, a man
of the common people, the kind that
has and will always make America
safe for Democracy.

We therefore believe it to be our
duty to recommend Col. Ripy to the
Democratic voters of Madison county
and the Eighth Congressional Dis-
trict, and ask them to vote for him
for Representative in Congress. We
know him to be capable and worthy
of the office he seeks.

He resigned his position as County
Attorney of Anderson County when
war was declared and at a time when
our Nation was in distress and went
to its relief when he did not have to
go. He was past the draft age. He
followed the Flag with us on the Mexi-
can border, and from the United
States to France, and stayed with us

until the war was over, and victory
declared, and we are with him until
this election is over and victory is his.

We believe if he is nominated as
our candidate for Congress in the
Eighth Congressional District that we
will gain an old-fashioned Democratic
majority in November, and Democ-
racy will return to her own. We
therefore, appeal to all the Democ-
ratic who want victory in November
to go to the polls and vote for Col.
Frank L. Ripy, in the Primary Aug-

(THE ANDERSON NEWS)

TO THE DEMOCRATS OF ANDERSON COUNTY AND THE 8th DISTRICT:

The Primary Election to select a
Democratic nominee for Congress in
the Eighth District is fast approach-
ing.

Saturday, August 7th, is the day
when you will be called upon to se-
lect your standard bearer to repre-
sent you in the halls of the National
Congress.

This county for the first time since

the Civil War has a candidate for this
high honor in the person of Col.
Frank L. Ripy, a Democrat in whom
there is no guile. During all these
years this honor has gone to men of
other counties and the citizens of
Anderson county have always sup-
ported loyally the nominees whoever
he was and from whatever county he
came.

In the name of fairness and com-
mon justice, we beg the Democrats of
this county and those counties whose
nominees we have always heartily
supported to rally around the stan-
dard of Frank L. Ripy on August 7th,
next, and give him that nomination
to which he is so justly entitled.

He heartily endorses the nomina-
tion of James M. Cox for President
and Franklin D. Roosevelt for Vice
President.

He stands four square on the Dem-
ocratic platform adopted by the San
Francisco Convention and, if nomi-
nated and elected, will do all in his
power to see that every pledge is re-
deemed.

He can win in November and thus
redeem the Eighth District from Repub-
lican domination.

He has proven himself not only a
DEMOCRAT bpt a PATRIOT. As
soon as relations with Germany were
severed, he offered his services to his
country and was one of the last to
leave the foreign field.

Reports coming from different
counties in the district indicate his
nomination by a handsome majority.

Vote for Frank L. Ripy in the Pri-
mary and you will never have cause to
regret it.
